The 2013/14 - 2017/18 Capital Improvement Program will be presented to the City Council for approval on June 11. The Capital Improvement Program outlines the City's infrastructure needs and contains a capital plan consisting of 97 City projects, totaling approximately \$248.5 million, and 52 development projects, totaling approximately \$180.3 million. Sungold Park is located in the Carmel Estates subdivision (off of Minnesota Avenue, south of Sand Creek Road) and is being built by Meritage Homes in conjunction with this new development. Three interpretive signs were recently installed at this new public park site along Marsh Creek. One sign provides information on the railroad history in Brentwood, the second about Marsh Creek wildlife, and the third provides information on the functions of the bioretention basin.
